JSS

Jedar Stone Solutions was established in Australia in 2020 after 25 years experience in being a pioneer in the supply of tools and equipment for the marble and stone industry, accumulated through an affiliated company called Al Jedar in the Gulf. Jedar has built a solid reputation in terms of quality, reliability, and dependability.

The key to our success is our commitment to achieve customer satisfaction when it comes to the quality of our products and the efficiency in our services.

We believe in providing quality products, and hence we source top of the range products for the industries' professionals, providing specifications, knowledge, and technical support to ensure that our clients are always up to date with the use of all products.

WHY JSS

**High-quality products sourced from the best suppliers across the world.
25 years of experience in the industry.**

- **Committed to meeting client demands.**
- **Efficient Service with customer satisfaction.**
- **Delivering quality products - every time.**
- **Supporting small, medium, and large-scale projects.**
- **Your local one-stop shop.**

Rockany

Established in the United Arab Emirates from humble beginnings, ROCKANY has been adapting to the needs of an ever-changing market for over 16 years, cementing itself as a leading brand of premium diamond cutting tools and supplies.

Starting off in 2004 with a primary focus on diamond tools, the ROCKANY brand made its mark with small exposures in the industry, very quickly achieving recognition in the local market. Rapid success in the diamond tool sector allowed ROCKANY to penetrate the market of Gulf Co-operation Council (GCC) countries and became well known in the industry for its quality diamond cutting tools.

ROCKANY has found and nurtured success over the years in a range of industrial sectors including:

ROCKANY has found and nurtured success over the years in a range of industrial sectors including:

- High quality grade stainless steel fasteners
- Chemicals for stone treatment
- Mastic glue, adhesives and silicone
- Cladding systems
- Polishing paper and pads

Jedar Stone Solutions is proud to launch the ROCKANY brand in Australia and looks forward to servicing you with high quality tools and products for your project.

Woosuk

Since starting out in the Diamond tool industry in 1996, WOOSUK A.T has continually strived to develop new technologies and products to service the market. When it comes to quality of manufacture WOOSUK is recognised for its competitive edge.

WOOSUK is renowned as a role model of the Diamond Tool industry for its achievement in increasing its market share with advanced automation systems and for its competitiveness towards superior technological levels, manufacturing capabilities and efficiency.

Jedar Stone Solutions is proud to recommend and supply WOOSUK products for the industry professional, where you can be assured of reliability, dependability and quality.

CNC Tools

Rockany Brazed Diamond Router Bit - M14

Diamond Finger Bits – used for Granite and/or Marble – The segment Finger Bits, Resin Finger Bits and Brazed finger Bits have a good cutting effect and long working life.

Grite# 30

Granite - Marble - Engineered Stone

ITEM NO	SIZE
ROC037-16	16mm
ROC037-18	18mm
ROC037-20	20mm
ROC037-25	25mm

Woosuk Ceramaster Sintered Wet Core Drill bit.

Dekton - M14 & 1/2" GAS

New sintered metal bond segment for extremely faster cutting speeds and longevity- chip free on very high compact materials without having to sharpen.

Great performance with wet application by manual cutting and CNC. Dry application for hand-held machine is possible. Guaranteed to drill with a clean cut, improved cutting speed and improved lifespan.

*Various diameter and length are available upon customer's request.

Granite - Marble - Engineered Stone - Ceramic
